

## Academic Year for 2025-26

### Institution- Industry /Placement Committee

The Institution–Industry / Placement Committee acts as a bridge between the college and the corporate sector to enhance students' employability. Its main role is to develop strong industry linkages, organize campus recruitment drives, internships, industry visits, guest lectures, and training programs. The Committee ensures students receive guidance in career planning, resume building, interview skills, and overall professional development. It also gathers industry feedback to align academic inputs with current industry requirements and works continuously to improve placement opportunities for students.
